

DURASTAR 96% TWO-STAGE Product Details

DURASTAR Two-Stage Gas Furnace 96% AFUE • DR96M4AW

KEY POINTS

High Efficiency Design: This furnace has an efficiency of 96% AFUE. That means out of \$1.00 worth of fuel you put into it, you're going to get 96¢ going to heat your home, only 4¢ is vented out. That's outstanding!

Two Stage Operation: Longer run cycles means a more even heat through the home. Furnace starts at around 50% capacity, if it cannot satisfy your set temperature, it will jump to 100% capacity.

True Variable Blower: The blower motor is high efficiency and intelligent. It will automatically adjust to make sure your heating and cooling system have the proper air flow, and will try to overcome airflow problems.

Bluetooth Technology: This furnace is Bluetooth connected to allow us to configure, tune, and calibrate your system. It also helps us diagnose and fix any failures or trouble codes that occur, saving you on labor charges.

Standard Warranty: This equipment comes with a 10-year part warranty and a 1-year labor warranty. We have Air Conditioners that include a 10 Year Parts & Labor warranty for the ultimate peace of mind.

Backed by the Good Guys: You aren't just buying a box. You're buying into our award winning service team that knows how to take care of this for years to come. We don't just disappear after the sale.
