

Central Air Tune up

A spring inspection and tune-up of your central air conditioner unit can improve its efficiency and increase its life span. Without regular cleaning and maintenance, an air conditioner can lose up to 5% of its original efficiency for each year of operation.

Kaukauna Utilities offers an incentive to encourage regular inspection and maintenance of central air conditioners. If you are a homeowner or business owner with a central air conditioner, you may be eligible for up to \$25 toward a professional service inspection and tune-up.

Eligibility:

- AC Tune ups are available to Residential and Business customers with Central Air Conditioning units of 5 tons or less
- Tune up must be performed by a professional service technician within the calendar year and include the 12 point inspection completed (reverse page)

How to Apply:

1. To qualify for the \$25 bill credit, the applicant must meet all of the eligibility conditions and complete the application on the reverse side.
2. Attach the sales receipt (or a copy of the receipt) or paid invoice from a professional heating and cooling inspection and tune-up service.
3. The receipt or inspection documentation must indicate the date of service, dealer name, and an itemized list of service checkpoints, and any repair recommendations.
4. Drop off your completed application at our office or mail it to Kaukauna Utilities
777 Island St.
Kaukauna, WI
54130
